AUTHENTIC. PURE. INTENSE.

Like mixology, **syrup is an art** – the art of creating, inspiring, and sharing unique and intense aromatic flavours. And like any respectful art, we want it to benefit from our **highest standards** and savoir-faire. We honour above all our artists - our bartenders and baristas around the world – who, through their inventiveness and skill, give life to this idea of infinite creativity, constantly renewed.

Each product in the 1883 range is produced according to our unique requirements - from the selection of the finest ingredients to the search for its accurate representation, including its power and undisputed intensity - nothing is left to chance in offering a syrup of consistent quality and perfect balance.

An exceptional syrup made to the **highest of standards.**

1883 DRINK DESIGNER LAB THE ART OF AROMATIC BLENDING

Unique in the world, the **AromaSensoris Palette™** is a tool exclusive to our company. It helps us detect, define, and quantify 70 precise aromatic notes – elements of a syrup that faithfully reproduce taste, texture, and flavour.

Developed by our experts, it enables the creation of categories and subcategories in order to classify the different molecules based on their most precise characteristics. In addition, this palette is constantly evolving, thanks to the discoveries, innovations and advances of our team.

The tool guarantees our teams unwavering accuracy and balance in the flavours and their references.

Pacific Barista Series™ plant-based beverages are designed for professional baristas. They are available exclusively through specialty coffee and foodservice distributors. **Your customers want options.**

Pacific Barista Series™ Oat, Almond, Soy, Coconut and Hemp help you demonstrate craftsmanship and quality to customers who order plant-based beverages.

KEEPS FOCUS ON COFFEE

- Subtle flavour profiles
- Meticulously crafted to complement coffee and espresso
- Lightly sweetened for perfect balance

TAKES THE HEAT

- Each variety withstands the high heat of steaming
- No burnt or bitter notes
- Curdle-free — no separation in coffee or espresso
- Also works great in cold drinks

GREAT TEXTURE

- Creates consistently smooth, glossy micro-foam
- Performs as well as dairy
- Perfect for latte art

PACIFIC BARISTA SERIES™

ALMOND

PERFECT FOR CAPPUCCINOS. SPECTACULAR PAIRING WITH COFFEES FROM BRAZIL, COLOMBIA AND SUMATRA.

Light almond flavour crafted to complement espresso, with less sweetness than regular milk. Unlike conventional almond milks, Barista Series™ Almond does not turn burnt or bitter when heated. Your best friend on the bar.

PACIFIC BARISTA SERIES™

ALMOND UNSWEETENED

IDEAL FOR DRY LATTES OR FLAVOURED DRINKS. AMAZING WITH VARIETALS FROM BRAZIL, COLUMBIA AND SUMATRA

Light almond flavour crafted to complement espresso, without any added sweetness. Finally, an unsweetened almond that holds up to your professional barista standards.

PACIFIC BARISTA SERIES™

COCONUT

MAKES AN AMAZING MOCHA. TRANSCENDENT PROFILE WITH DARKER ROASTS.

Subtle coconut flavour perfectly complements cold brew, espresso and other coffee beverages. Join the coconut movement!

PACIFIC BARISTA SERIES™

OAT

SUBTLE FLAVOUR THAT COMPLEMENTS ESPRESSO. BRINGS NEW DEPTH TO LIGHTER-ROASTED, FRUITY COFFEES.

SCA Best New Product, Barista Series™ Oat has a creamy mouth-feel, subtle taste profile and pours like Picasso. Gently sweetened with oats.

PACIFIC BARISTA SERIES™

SOY

THE BEST PARTNER FOR CHAI AND VANILLA LATTES. MAKES MAGIC WITH COFFEES FROM GUATEMALA, MEXICO AND PERU.

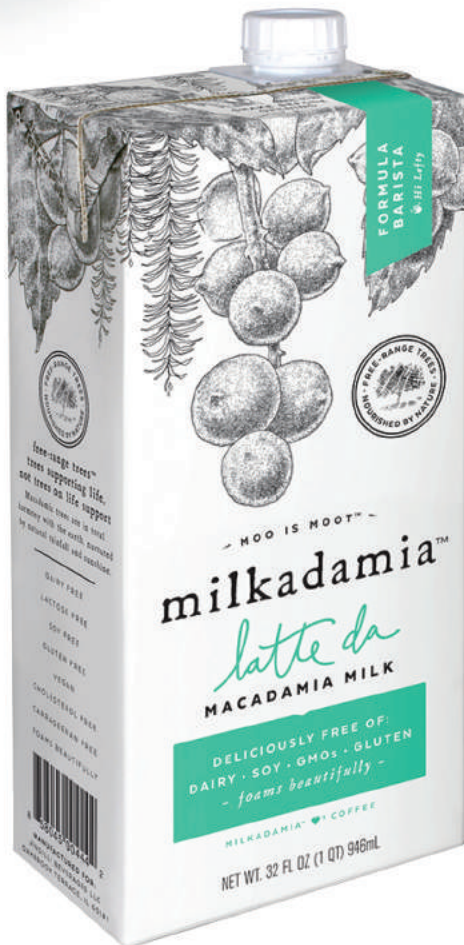

The plant beverage that started it all. Barista Series™ Soy is made from organic soybase and features a neutral taste profile to showcase the flavour of fine espresso.

LATTE DA BARISTA

Macadamia, milkadamia – a subtle play-on-words. We wanted the not-dairy in our lattes and cappuccinos to be subtle and creamy, so the coffee notes can really sing. Get your latte artist on with this crema of the crop. It's how moo-free coffee tastes now.

UNSWEETENED MACADAMIA MILK

Creamy, delicious and made to please.

LATTE DA BARISTA UNSWEETENED

The creamy smoothness of milkadamia complements, not competes with, the roast of your coffee. Subtle and creamy so the coffee notes can really sing out loud...latte unsweetened foaming da.

Why Regenerative Farming?
Regenerative farming is a growing system that works with nature and helps the earth. This practice restores the biodiversity and composition of soil, creating more nutrient-dense plants... all while sequestering carbon from the atmosphere and allowing the earth to breathe easier.

HOLLANDER CHOCOLATE Co.

Made for the modern café and barista, Hollander Chocolate is the premium collection of café sauces and powders. Created for craft beverages with Hollands finest Dutched cocoas and high quality ingredients, we elevate classic cocoa recipes to work in harmony with fine espresso.

REAL INGREDIENTS

- The finest dutched cocoas
- Real natural cocoa butter
- Premium french vanilla
- Real cane sugar, no HFCS
- Natural flavours
- Best ingredients on the market

FORM AND FUNCTION

- Super fine cocoa particulates
- Thinner sauces for easy blending
- Neutral PH cocoas for pairing
- Natural cocoa butter for pairing

DUTCHED COCOA

Dutched cocoa is a superior cocoa to pair with espresso & tea. The process of alkalization creates a neutral PH. This allows the signature top notes of espresso to shine, while the cocoa provides the deep base notes.

FLAVOUR FIRST

As a flavour first company, our goal is to have the best tasting café products on the market. Many of our products are entirely or in part made with organic, natural, and GMO-Free ingredients.

Ceremonial Matcha

Don't settle for second grade Matcha - Aiya is the purest, most vibrant, and incredibly flavourful Matcha that you can offer your customers!

- World's leading Matcha green tea producer since 1888
- Aiya owns over 80% of the exclusive harvesting rights to the Nishio tea plantations – The worlds highest quality tea leaves since the 1200's
- Shade grown, Hand-harvested, Only selected leaves
- Extensive quality control
- Benchmark standards & quality

MATCHA ZEN CAFÉ BLEND

Aiya's Pre-Mix contains pure Matcha green tea powder and is only slightly sweetened with pure cane sugar, making it easy to create delicious green tea flavoured drinks. Unlike other premix blends, which are heavily sweetened, Aiya Pre-mix Matcha delivers true Matcha flavour and vibrancy in a versatile and convenient form. Perfectly blended for invigoratingly healthy Latte's, Iced Tea, Smoothies, & more.

PURE COOKING GRADE

A good cooking grade Matcha has a stronger tea flavour than a drinking grade. This allows the Matcha flavour to shine through even if mixed with other ingredients. Although some would consider it slightly too strong for traditional drinking, this grade is best suited for making Matcha flavoured desserts and beverages such as Matcha cookies, smoothies, and lattes.

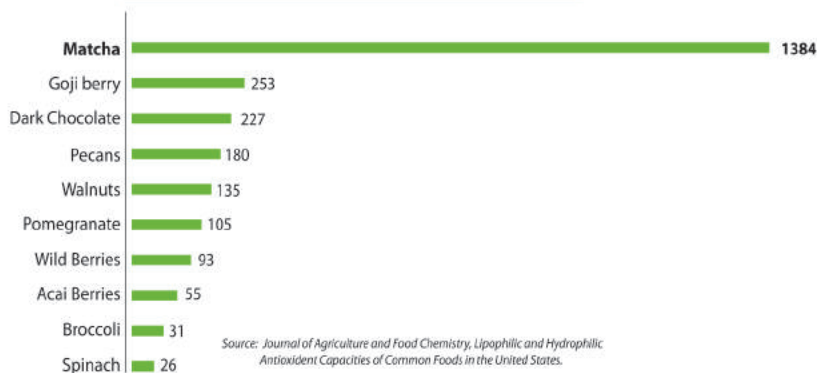

CEREMONIAL GRADE

Having the perfect balance of natural sweetness (derived from the amino acid L-theanine) and slight Matcha astringency (derived from natural tea Catechins), this is the perfect Usu-cha (thin style Matcha) for tea ceremony.

WHY SO MUCH BUZZ AROUND MATCHA?

- Highest antioxidant food on earth!
- ORAC test results show that one gram of Ceremonial Matcha green Tea contains 1384 ORAC (antioxidant) units, more than any other green tea, fruit or vegetable!
- Matcha contains over 5x the antioxidant levels of Goji berry; Over 13x that of Pomegranate; Over 25x of Acai. (Journal of Agriculture and Food Chemistry)
- The combination of natural Amino Acid L-Theanine and Caffeine delivers an increase in energy without the crash; "calm-alertness".
- Natural Chlorophyll Body Detoxifier.
- Promotes Weight Loss: gently boosts your metabolism and burns fat.
- High levels of the catechin EGCG, reported to fight cancer
